INTRODUCTION

Launched in April 2021, Kishu Inu is the fastest-growing cryptocurrency of its kind. Kishu is fully decentralized and on a mission to bring popular cryptocurrency concepts to the mainstream in one, easy to understand project.

DISCLAIMER

Kishu Inu including but not limited to the overall project, the token, website, smart contracts and any apps (“KISHU INU”) as presented in this conceptual paper is not an licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. KISHU INU is a fully and completely decentralized and community driven project and does not have owners, shareholders, promoters, marketers, managers, directors or other figures or entities exerting any form of governance; the KISHU INU smart contracts are open-source, security audited, permanent and non-modifiable in any way. The KISHU token is a strictly utility token in any jurisdiction and is not and can not be considered as a security or otherwise a regulated token of any kind, is not in any way e-money and/or a fiat or asset backed stablecoin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, is not an invitation, solicitation or offer to invest in KISHU INU or acquire or use its KISHU tokens in any way and with any expectation of profit in any form. Any user of KISHU INU declares to have received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper, the website and using any portion or element of KISHU INU (including any KISHU token therein) and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software, interface including KISHU INU and further acknowledges with full disclaimer for any community member directly or indirectly involved with KISHU INU, that there can be any kind of damage suffered, including total loss.

Abstract

Little Meme. Big Dream. Welcome to KISHU...

KISHU INU was created in April 2021 with the goal of being a decentralized meme project with true purpose.

KISHU’s mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, KISHU introduces holders to next-gen concepts such as participation rewards, NFTs, decentralized exchanges, and more.

Within the first month of its launch, KISHU made history by surpassing a $2 billion market cap and over 100,000 holders. This was an unprecedented milestone for a project of its kind, and proved the world’s belief in the project.

The KISHU INU project includes...

$KISHU TOKEN
An ERC20 meme token that fosters and promotes healthy and widespread usage and decentralization of the project through a specific reward linked to users’ transactions involving decentralized wallets. The more holders use, trade and execute transactions with $KISHU, the higher the rewards! It’s a kind of automagic ;-) 

KISHU SWAP
Decentralized exchange that features custom functionality and allows holders to trade among themselves and without any centralized point of failure any ERC20 token for another.

KISHU CRATE
NFT Marketplace where users can stake $KISHU in exchange for NFT rewards created by artists from community contests. The artists are awarded prizes out of the $KISHU staking pool.

KISHU PAW PRINT
Wallet tracker where users can track their prizes and rewards out of $KISHU usage, current token valuations, wallet balance, and more.

KISHU sWAG [coming soon!]
A merchandise store run by an ownerless, stockholderless non-profit organization to allow $KISHU holders to proudly support KISHU INU’s fun in the real world, with any and all proceeds supporting the KISHU INU’s project growth, maintenance and future features.
KISHU INU is ownerless, fully decentralized and supported by its community of enthusiasts. Free, open and frank communication is encouraged within the community supporters so that everyone willing can be informed and even participate in every step of KISHU INU’s growth! Multiple, independent, free group efforts in development, community self-management and more are strongly encouraged!

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of $KISHU’s code, and liquidity tokens being burnt to strongly reduce any risk of malicious behavior.

KISHU is in it for the long haul. The decentralized community is fostering long-term development of the ecosystem which will result in real use cases, greater rewards and a popularity beyond any temporary trends.
$KISHU Token

$KISHU is an ERC20 token which started on the Ethereum blockchain April 17, 2021.

The max supply is 100 quadrillion and one of its key functionalities is its decentralized usage rewards mechanism. For every active user transaction a 2% $KISHU reward is granted to holders’ decentralized wallets only, fostering a healthy distributed network and community usage. The more $KISHU is actively used, the more rewards are granted!

The $KISHU Token Smart Contract successfully passed a top-grade security audit to further the community’s confidence, in full transparency.

KISHU INU is a fully decentralized and community driven project - $KISHU liquidity pools and listings are constantly added by many completely independent enthusiasts and supporters in a number of different exchanges, among which:

...and many others thanks to our active and diverse community!
**04 Ecosystem**

**KISHU SWAP**
Launched May 5, 2021, KISHU SWAP is a decentralized exchange (DEX) where users can swap any ERC20 token for another one.

It is powered by Uniswap, the largest and safest DEX in the world and acts as the foundation on which KISHU INU will develop further functionality and use-cases for any $KISHU holder.

**KISHU CRATE**
Coming in June 2021, KISHU CRATE is the official KISHU INU community’s NFT decentralized marketplace - $KISHU tokens can be staked (locked) in order to receive exclusive NFT rewards and digital collectibles featured by artists that are themselves part of the KISHU community.

KISHU INU will foster participation in regular contests for artists to showcase their work and have the community vote on which should be added to the marketplace.

**KISHU PAW PRINT**
Launched in May 2021, KISHU PAW PRINT is an app with which users can track their $KISHU token stats over time.

Stats include $KISHU rewards and total balance, current USD value, price charts, and more.

**KISHU sWAG**
Coming in June 2021, KISHU sWAG takes KISHU to the mainstream by allowing any enthusiast to represent KISHU in the wild with official merchandise sold by a completely ownerless and non-profit, transparent organization. Any proceeds will be used to foster and support further KISHU INU community and platform development.
Roadmap

**PHASE 1 - LAUNCH**
*COMPLETE*

- 1,000 Holders
- Website Launch
- CoinGecko Listing
- 2,000 Telegram Members
- CoinMarketCap Listing
- 5,000 Holders

**PHASE 2 - GROWTH**
*COMPLETE*

- 5,000 Telegram Members
- Website Redesign
- 10,000 Holders
- 10,000 Telegram Members
- 20,000 Holders

**PHASE 3 - EXPANSION**
*COMPLETE*

- KISHU Swap (Decentralized Exchange)
- Initial CEX Listings (Hotbit, Bilaxy, CoinTiger)
- 15,000 Telegram Members
- 30,000 Holders

**PHASE 4 - UTILITY**
*IN PROGRESS*

- KISHU Crate (NFT Marketplace)
- KISHU Paw Print (Wallet Tracker)
- KISHU sWag (Non-profit, real life Merchandise Store)
- 3 More CEX Listings
- 50,000 Telegram Members
- 100,000 Holders
- Influencer Partnerships

www.kishu.com
KISHU INU is a fully decentralized community-led project. Therefore, it runs primarily on volunteers and donations from the community.

**USE OF DONATIONS**

Donations contributed by our community will go towards three things:

1) **Awareness**
Participation with social media influencers, digital and real-world awareness campaigns

2) **Exchange Listings**
Complementing the existing independent listings in DEX, further CEX presence will be sought to better the reach of the project among new audiences

3) **Platform and Community Development**
Following the roadmap and expanding the KISHU community, features and ecosystem ecosystem

**OFFICIAL DONATION WALLET**

0xB7852D285f31B740318CAb51Bd0E5E7936073725

Accepts: Any ERC20 token
Prefers: $KISHU, $ETH and $USDC
